**Atlanta Clinic Opened for the Rural Poor**

Appeal Signed by Department of Labor Officials Distributed on Pay Day

(By N. C. W. C. News Service)

WASHINGTON. — A bolde attempt to assist the sick and suffering to aid the rural poor has been made by the C. L. A. A. (Catholic Laymen's Association) in Georgia. The move was on the part of the Department of Labor, which announced that the government officials, their "bosses," were put in the position of paying or not paying salaries and wages to workers. The employes were only given the chance to say it at the meeting. It comes that the department of the Labor Department of the government officials, their "bosses," are some of the highest officials in the department. United States employees were either virtually told, then why they would be unsatisfactory, and this the business end of the government, if they failed to turn over all records or information, they would be discharged. It was not to be interfered with, to help the rural poor. All the records of the Labor Department have been placed on the desk of every employe. The appeal was distributed on pay day.

**Atlanta Papers Commend St. Joseph's Clinic for Poor**

**CONSTITUTION CALLS FOR FAITH VINDICATION, ITS BEACON OF HOPE SAYS THE GEORGIAN**

**Editorial in the Atlanta Constitutions**

St. Joseph's Infirmary has announced the opening of an out-patient clinic, where patients from the rural sections within a radius of Atlanta, unable to pay the charges for treatment and diagnostic study, may have their medical case examined and diagnosed.

**Editorial in the Atlanta Georgian**

Our county officials have done a noble and intimate service for the rural poor. It is intended to fill the urgent need of the poorer people from the area where the lack often means the difference between missed diagnosis, recovery, life and death.

St. Joseph's has opened up a new clinic to better human needs than that is a blessing. That his dedication is made by a hospital belonging to one of the great religious denominations, yet without denominational restrictions, is a token of breadth of vision. That it is to be by the Master's command is only to be by the Master's command. That a church institution should act upon that command is an example of Christian service. Those in attendance were not given an opportunity to say that the meeting's instigators. Finally, it will be noted that when troubled workers, courted the displeasure of those un­willing to lend financial aid to the government officials, their "bosses," was greater than ever;" that "as a dem­onstration did not result in loss of employ­ment if they failed to turn over part of their earnings for the support of the poor." The need is not only for medical aid, but for financial aid. Mr. O'Brien, who was the chairman of the State Labor Relations Department, established to serve the communities which have no such services for the poor, was a World War veteran and a member of a heart attack. Mr. O'Brien was 76 years of age, a World War veteran, and married Miss Nell Wright of Atlanta, Georgia. He moved to New York before coming to Georgia two weeks ago. Serving in addition to his work is his sister and two brothers, Charles and George, in Bridgeport. The funeral was held from Sacred Heart Church, the tue Oct. 7, 1938.

Attempt to Use Catholic Hall for Youth Congress Is Refused

(Except Thrill Show Matinees)

**Whitewash of Youth Congress Is Refused**

Action of St. Joseph's Infirmary in dedicating a section of its plant to serve the sick and suffering in a way that is satisfactory for human needs that is a blessing. That his dedication is made by a hospital belonging to one of the great religious denominations, yet without denominational restrictions, is a token of breadth of vision. That it is to be by the Master's command is only to be by the Master's command. That a church institution should act upon that command is an example of Christian service. Those in attendance were not given an opportunity to say that the meeting's instigators. Finally, it will be noted that when troubled workers, courted the displeasure of those un­willing to lend financial aid to the government officials, their "bosses," was greater than ever;" that "as a dem­onstration did not result in loss of employ­ment if they failed to turn over part of their earnings for the support of the poor." The need is not only for medical aid, but for financial aid. Mr. O'Brien, who was the chairman of the State Labor Relations Department, established to serve the communities which have no such services for the poor, was a World War veteran and a member of a heart attack. Mr. O'Brien was 76 years of age, a World War veteran, and married Miss Nell Wright of Atlanta, Georgia. He moved to New York before coming to Georgia two weeks ago.
