To be brought to the attention of the members of the seventh district is that bids for the county will be made Thursday afternoon. All bids must be in accordance with the specifications for the new bridges and will be taken at the Noon Hour for Sugar Creek between the adjoining counties.

COUNTY BOARD WANTS BIDS ON SEVERAL NEW BRIDGES

Will Erect Four Over Creeks in Whitfield County and Will Join Counties in Building Another—To Open Bids Saturday, July 23

The county bridges will be located at:

1. Chatsworth Creek near the Goodspeed School.
2. Chatsworth Creek near the Union School.
3. At the County Line near the Union School.
4. At the County Line near the Goodspeed School.

In addition to the above, a new bridge will be built at the Union School, but the exact location has not yet been determined.

FARM VALUES SHOW GREAT GAIN DURING PAST DECADE

Over Doubled in Value According to Government Census Figures—Number of Farmers Owning Also Increased

According to reports from 1920, the number of farms increased by 365,000 in the past decade, jumping from 1,816 to 2,181. The number of farms in the state of Georgia increased by 140,000, while the number of farms in the state of California increased by 120,000. The number of farms in the state of Texas increased by 110,000, while the number of farms in the state of Ohio increased by 100,000.

In addition to the increase in the number of farms, the value of farm property has also increased. The value of farm property in the state of Georgia increased by $75,000,000, while the value of farm property in the state of California increased by $60,000,000. The value of farm property in the state of Texas increased by $50,000,000, while the value of farm property in the state of Ohio increased by $40,000,000.

In addition to the increase in the number of farms and the value of farm property, the number of farmers owning property has also increased. The number of farmers owning property in the state of Georgia increased by 10,000, while the number of farmers owning property in the state of California increased by 8,000. The number of farmers owning property in the state of Texas increased by 6,000, while the number of farmers owning property in the state of Ohio increased by 4,000.

In conclusion, the decade from 1920 to 1930 has been a period of great increase in the number of farms, the value of farm property, and the number of farmers owning property. It is a period of great advancement and progress in the agricultural industry.
